PROFESSIONAL SUMMARY

UI/UX Designer with hands-on experience designing mobile apps, responsive websites, internal dashboards, and business software interfaces. Strong in end-to-end product design, user flows, wireframes, high-fidelity UI, scalable design systems, and developer-ready handoff. Focused on simplifying complex workflows, improving usability, and creating clean, modern, user-centered digital experiences.

WORK EXPERIENCE

UI/UX Designer - Delta Estates

Mar 2026 - May 2026

[Company Page](#)

- Designed construction management software interfaces for internal and business users.
- Created dashboards to track projects, users, workflows, and operational activity.
- Simplified complex business processes into intuitive user flows and clean UI layouts.
- Built structured components and reusable layouts to support scalable product design.
- Collaborated with stakeholders to convert business requirements into practical UI solutions.

UI/UX Designer - The Product Engines

Mar 2025 - Feb 2026

[Company Page](#)

- Designed responsive website interfaces for photography and service-based platforms.
- Led end-to-end design of the Girl Thing App from research and wireframes to polished UI.
- Created user-centric flows focused on onboarding, engagement, and conversion.
- Developed consistent design systems using typography, color foundations, and reusable components.
- Collaborated with developers to support accurate implementation and smooth design handoff.

SELECTED PROJECTS

Girl Thing App - End-to-End Product Design

[Case Study](#)

Women-centric mobile app designed to improve connection, interaction, and user comfort.

- Translated product ideas into structured user journeys, wireframes, and polished UI screens.
- Designed key experiences including onboarding, home feed, and interactive sections.
- Improved usability and accessibility through clear interaction patterns and modern mobile UI decisions.
- Built a scalable design system to maintain consistency across the product.

Jiya Rathi

UI/UX Designer

SELECTED PROJECTS

EmpowHer - Mobile App Design

[Case Study](#)

Women-focused mobile app designed for empowerment, support, and community building.

- Led end-to-end UI/UX design from concept and user flows to high-fidelity interfaces.
- Designed intuitive experiences for onboarding, content interaction, and user engagement.
- Focused interaction patterns and content structure on a safe, inclusive, and user-friendly environment.
- Developed a consistent design system with typography, color palette, and reusable components.

FoodieFit - Mobile App Design

[Case Study](#)

Smart mobile app designed for food scanning and nutritional analysis.

- Led end-to-end UI/UX design from concept and user flows to high-fidelity interfaces.
- Created intuitive experiences for food scanning, result insights, and health tracking.
- Simplified complex nutritional data into clean, easy-to-understand screens for faster decisions.
- Built a consistent design system with typography, color palette, and reusable components.

Laundry App

[Case Study](#)

Urban laundry service app designed for simple service discovery and booking.

- Designed clean booking flows with accessible UI and clear task progression.
- Included location-based shop listings and flexible service packages.
- Created onboarding and personalized care options to improve convenience and user control.
- Focused on a reliable, intuitive journey for students, flatmates, and working professionals.
